VI. APC and LPC Examination Requirements Repealed

Adopted: 01-10-2014
Repealed 01-08-2016

VII. Degree Requirements:

Board rule 135-5-.01(a) 8 and 135-5-.02(a) (11) were amended effective March 17, 2015, and the following language (italics/underlined) was removed:

8. “Program Primarily Counseling in Content” and “Program in Applied Psychology” means a course of study at an accredited educational institution consisting of a master’s degree which includes *either* as part of the degree program *or as additional course work completed prior to, during or after the degree program,* the following graduate level courses.

The Board proposes to add this language back into the sections of these two rules within the next few months. In the meantime, by this policy, any application submitted and reviewed by the Board from March 17, 2015 until these two rules can be amended, **whom the Board deems** to have been, or would be, adversely affected by the removal of the above referenced language may report additional course work completed prior to, during or after the degree program as part of their application materials without the filing of a Petition for Variance of a Board rule [O.C.G.A. § 50-13-9.1(b)(2)]

Adopted: 08-07-2015

**Rule amendment to insert this language back into this rule to become effective on or about 02-29-2016 (Adopted 02-05-2016 Meeting)*

VIII. Directed Work Experience and Supervision Hours - Counselors:

It is the intention of the Professional Standards Committee, Licensed Professional Counselor members, that the Board rules referencing the Directed Work Experience and Supervision for licensure as a professional counselor, 135-5-.02, that the required post-master’s hours of supervision and work experience be obtained consecutively *each and every month* for the duration of the required months/years of the post-master’s experience. Therefore, a minimum number of hours for each month are expected to be accrued.

The *maximum time frame* for obtainment of the required hours of supervision and work experience is within 60 months from start date.

Also, the expectation is these hours are equally spread out over each month of the full 12 month/yearly periods. Individuals must document a full 12, 24, 36 or 48 months of supervision and work experience – whichever their degree/educational credentials dictate.

Contemporaneous logs MUST be kept and shall be subject to Board review upon request.

- NOTE: After September 30, 2018 the post-master’s supervision hours change to 35 per 12

months/a year and the post-masters work experience hours change to 1000 per 12 months/a year.

Adopted 04-08-2016
